

## STORM Winch Operated Mast Series

The masts are lightweight yet tough, and are capable of supporting a wide range of head loads including antennas, cameras, lights, and much more.

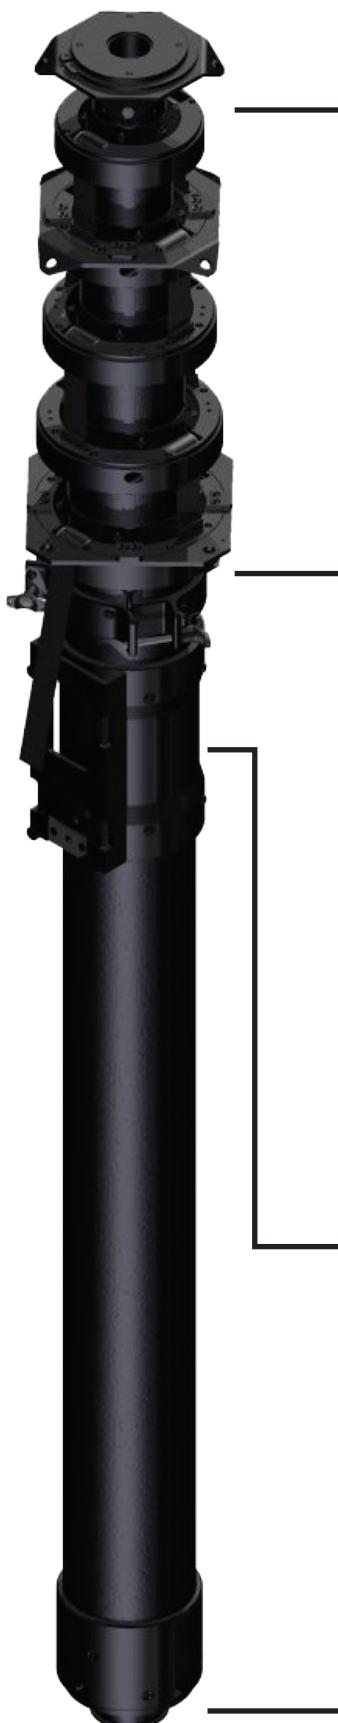

Our telescopic masts in particular are renowned worldwide for superb performance in even the most hostile conditions. The range includes models with maximum extended heights from 6 to 18 metres (20 to 60 feet), with a complete range of installation accessories for total mast system solutions.

Mast	Height Extended (m)	Height Retracted (m)	Max Load Guyed (kg)	Max Wind Fully Guyed (kph)	Max Sail Area (m <sup>2</sup> )	Basic Weight of Mast/Winch
ST5-6	6	1.8	35	120	0.6	21 + 5.5
ST5-9	9	2.3	35	120	0.6	25 + 5.5
ST5-12	12	2.9	35	120	0.6	29.5 + 5.5
ST5-15	15	3.4	35	120	0.6	33.5 + 5.5
ST5-18	18	3.9	35	120	0.6	37.5 + 5.5
